Ford Sierra Cosworth RS500 1987 Project, got parts but needs full restoration.

The 1986 Ford Sierra Cosworth is a high-performance variant of the Ford Sierra, renowned for its sporty design and powerful engine. It features a turbocharged 2.0-liter inline-four engine, producing around 200 horsepower, which allows it to accelerate quickly and achieve impressive top speeds. The car was equipped with rear-wheel drive and a five-speed manual transmission, making it popular among enthusiasts for its handling and performance.

The Sierra Cosworth was also notable for its distinctive body kit, which included wider wheel arches, a rear spoiler, and aggressive styling cues. It was a significant model in motorsport, especially in rallying, contributing to its iconic status. Overall, the 1986 Sierra Cosworth is celebrated for its blend of practicality and performance, making it a classic in the automotive world.
