MKII Cobra 289

Replica

Needs full build

The MKII Cobra 289, often referred to simply as the Cobra 289, is a classic sports car produced by Carroll Shelby in the early 1960s. It features a lightweight fiberglass body mounted on a tubular steel chassis, contributing to its impressive performance and agility.

Key characteristics include:

- **Engine:** Powered by a 289 cubic inch (4.7-liter) Ford V8 engine, which was tuned for performance, providing a thrilling driving experience.
- **Design:** The sleek, aerodynamic body is characterized by its distinctive curves and minimalistic styling, with a long hood and short rear deck.
- **Performance:** The combination of lightweight construction and a powerful engine allows the Cobra 289 to achieve remarkable acceleration and handling, making it a favorite in both racing and recreational driving.
- **Heritage:** The Cobra has a rich motorsport history, winning numerous races in its era and becoming a symbol of American automotive performance.

The MKII variant specifically is known for its improved features over earlier models, making it a coveted collector's item today.
