Ford Sierra PL 1986

3 Door

MK1

Left hand drive

Parts and body, needs for restoration

The 1986 Ford Sierra PL 3-door is part of the first generation (MK1) of the Sierra lineup, introduced in the early '80s. This model features a more basic trim level aimed at practicality, offering a streamlined design that set it apart from its predecessors.

Equipped typically with a range of inline-four engines, the Sierra PL emphasizes efficiency and everyday usability. Its 3-door hatchback configuration provides a sporty look while maintaining good access to the rear seats and cargo space.

The MK1 Sierra is notable for its aerodynamic shape, which contributed to better fuel economy and performance for its time. Inside, the PL trim offers essential features without the frills, making it a reliable and budget-friendly choice for consumers. Overall, the 1986 Sierra PL embodies the era's blend of style and functionality in a compact car.
